

**RAPID CITY AREA SCHOOLS**  
**Middle and High School**  
**Online Youth Survey**  
*(Proposed)*  
**2018**

(The following includes all questions found on the Online Youth Survey for Middle and High School Students. Skip Logic is employed for those questions indicated.)

This survey is about character, health and behavior. It has been developed so you can tell us what you do that may affect your health and well-being. The information you give will be used to improve education and services, both in and out of school, for young people like yourself.

**The answers you give will be kept private. No one will know what you enter.**

Answer the questions based on what you really do and know. Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. If you are not comfortable answering a question, just leave it blank. The questions that ask about your background will be used only to describe the types of students completing this survey.

The information will not be used to find out your name. **No names will ever be reported.**

Make sure to read every question. If you need to go back to a previous page, use the PREV button on the bottom of the current page, do not click your browser's back button. The survey should only take you a few minutes to complete.

When you are finished, follow the instructions of the person giving you the survey.
